

## Basic rules for helicopters during Barum Czech Rally Zlín (BCRZ)

- 1) Helicopters which will fly over the airspace of BCRZ have to register with the organiser by filling the form below.
- 2) The helicopter of Eurosport which will film the SS has highest priority (except the medical helicopters) in airspace over the special stages (SS) during the filming of the rally. Other helicopters have to clear the airspace over the part of SS during the flight of Eurosport helicopter to prevent collision.
- 3) Landing and taking off on SS is possible even when the Eurosport helicopter is present. Of course you have to follow safety precautions.
- 4) „Chasing“ the rally cars from distance less than 500 feet is not allowed (except Eurosport helicopter).
- 5) You have to follow standard rules of air-traffic in airspace.
- 6) Exclusive channel for communication is 121,000. You have to always state the destination of your flight on this channel. Communication language is English.
- 7) Landing close to Service Area Otrokovice is possible in Barum Continental in tarmac only for Eurosport and Škoda helicopter ( Loc: 49°12'02"N, 17°31'12"E ). Other helicopters can land next to it on the grass ( tba, Loc: ..... )
